NAIDA WEST'S CALIFORNIA GOLD TRILOGY

Naida West

Each book of my trilogy tells a forgotten story about real people and events in central California. Each one can be enjoyed without reading the others, though history buffs insist they must be read in sequence. The spirit of a native woman lodged in an oak tree narrates all of them, and each one has substantial endnotes. They are required or recommended in college classes across the US and UK, but my dearest fans come from all walks of life and all age groups, except for young children for whom some scenes are inappropriate.

Inspiration for the trilogy came from the land and artifacts I found beneath my feet. Here I feel the spirits of those who walked before me – including young Elitha Donner of the Donner Party; I encountered the clay floor of her adobe cabin in my garden a few steps from my door. A name mix-up had left her out of history. I'm sure you'll agree that her amazing story needed to be told *(see Red Gold and parts of Wicked)*.
